## UNION STATION IS CHECKED TO ROADS

Chamber of Commerce Gets  
Busy on Its Newest  
Movement.

As a further development in the  
campaign which has been inaugurated  
by the Chamber of Commerce and  
Federation of Allied Interests to  
bring about the erection in this city of a  
modern union station, Secretary Clarence  
Douglas yesterday addressed letters to the heads of all of the  
roads entering Tulsa, asking for ex-  
pressions from the roads as to their mat-  
ter.

It is the purpose of possible, in the  
near future, to call in Tulsa a con-  
ference of the respective railroad  
superintendents or superintendents for  
the purpose of outlining the situation and  
in attempting to reach some solution  
of the matter.

From a discussion on the street,  
which followed the announcement  
that the Chamber of Commerce had  
entered into the campaign with a  
determination to secure the station,  
it was evident that the  
people of Tulsa are fully aware to  
the importance of such an improve-  
ment and will support the chamber  
in any movement which may be  
launched to secure it.

It was also learned that one or  
two of the roads were not in hearty  
accord with the plan, but it is the  
hope of those interested in securing the  
station for Tulsa, that these may  
be brought to a more thorough con-  
sideration of the project and to a point  
where they will be willing to abide  
by the decision of the others in the  
affair.

Colonel Douglas expects replies to  
his letters within the next week, and  
it then will be possible to learn the  
position the several railroads take on  
the project, and whether they will  
be willing to reach an agreement, or  
whether it will be necessary to call  
in outside forces to bring about the  
wishes of the people of Tulsa.

### CAMP OPENING IS GIVEN A SETBACK

Campfire Girls Will Reach Resort  
First Then Boy Scout  
Legions.

On account of heavy rains officials  
in charge of Camp Tahlequah have  
decided that the spot will not be  
opened until July 1, and by this ar-  
rangement the Campfire girls of the  
state will be the first to take the trail.

The older high school boys' camp,  
which was scheduled to start  
tomorrow, will be held in conjunction  
with the Boy Scout camp, which comes  
after the girls have their out-

ing.

Camp Tahlequah is about six miles  
from the city of that name and con-  
sists of a large tract of timber land.  
It is on the Illinois river, one of the  
best fishing and boating streams in  
the state. The woods are ideal for  
hunting and everything is set for a  
great outdoor life.

The state Y.M.C.A., which main-  
tains the camp, has erected some  
splendid equipment in the past year,  
adding to that which had been in-  
stalled in former times. The equip-  
ment includes regulation tents for  
sleeping quarters, a large permanent  
mess hall, kitchen, dining room,  
bath, all diamonds and other im-  
plements of a minor nature.

The camp is near a historic Indian  
stampeding ground, where the native  
dances are yet given by the redskins.

Although this is the first year that  
the Campfire girls have attended  
the camp, it is evident that their attendance  
will compare favorably with that of the  
various boys' camps. They have  
enrolled from Muskogee, and more  
than that number have been pro-

bited. The camp is near a historic Indian
